

SNEHA YADAV

Software Developer

Snehayadav9780@gmail.com

PROFESSIONAL SUMMARY

Experienced and forward-thinking software developer with over 3 years of proven success in delivering innovative, efficient software solutions. Proficient in ASP.NET, .NET Core, Web API, C#, and MS SQL, I excel at leveraging these technologies to build high-performance applications that drive impactful results and meet business objectives. My experience spans the full software development lifecycle, from requirements gathering and design to coding, testing, and deployment, ensuring that each solution is robust, scalable, and user-centric.

I am eager to bring my technical expertise and passion for problem-solving to a dynamic software development role where I can take on complex challenges and contribute to meaningful projects. My commitment to excellence, coupled with a strong drive for continuous learning, empowers me to make a positive impact on any team or project, fostering both technical growth and project success.

EXPERIENCES

✓ EnoviQ Technologies Lab Pvt. Ltd - Software Developer (June 2022-Present)

As a **Software Developer** I have designed, developed, and implemented software solutions across diverse projects, participating in the entire software development lifecycle—from requirements gathering and architectural design to coding and deployment. My role involves translating complex requirements into scalable, high-quality solutions with a strong focus on performance and user-centered design. By consistently delivering impactful software, I ensure that each project aligns with business objectives while meeting the highest standards of quality and innovation,

✓ Exaosis Technologies Pvt Limited - Software Developer (October 2021 - May 2022)

Worked as a Full Stack Developer at Exaosis Technologies Pvt Ltd, a subsidiary of EnoviQ Technologies Lab Pvt. Ltd, I have contributed to end-to-end development across the stack, from front-end interfaces to back-end services. My responsibilities included designing and implementing responsive, user-friendly interfaces, managing databases, and optimizing server-side logic, all while ensuring seamless integration and performance. This role strengthened my ability to deliver robust, scalable solutions and deepened my expertise in full stack development

PROJECTS

✓ HSBC Insurance - Hongkong Live Project

As a developer, I specialize in the Policy and Claims module, crafting user stories and resolving defects to meet client specifications. My experience has sharpened my problem-solving skills and deepened my understanding of insurance systems, ready to drive impactful outcomes in new projects.

✓ AXA Insurance - Singapore Live Project

Involved in initial requirement gathering and developing low-level designs to align with business processes. Translated low-level design into fully functional business application. Played a role in designing and developing database structures, including tables, stored procedures, and functions.

✓ Rebranding - Singapore Live Project

Translated client requirements into robust and fully functional APIs, ensuring seamless integration and performance. My expertise lies in bridging client needs with technical solutions, resulting in effective and efficient API development.

✓ HR Portal - Company's Internal Project

Involved in initial requirement gathering and developing low-level designs to align with business processes. Translated low-level design into fully functional business application by utilizing Web APIs utilizing ASP.NET Core and MS SQL and Played a role in designing and developing database structures, including tables, stored procedures, and functions.

✓ FIJI Care - Fiji Live Project

Crafted RESTful Web APIs utilizing ASP.NET Core and MS SQL, employing the service repository patterns to enhance scalability and maintainability. Engaged in designing and developing database objects including tables, stored procedures, and functions, alongside building API.

✓ Van Care - Vanuatu Live Project

Engineered RESTful Web APIs with ASP.NET Core and MS SQL, focusing on delivering scalable, maintainable solutions. Created and optimized database objects—including tables, stored procedures, and functions—to enhance API effectiveness.

QUALIFICATIONS

M. Sc. I.T - UNIVERSITY OF MUMBAI (2018- 2020)

Achieved an outstanding '**O Grade**' in M.Sc. in Information Technology.

B. Sc. I.T. - UNIVERSITY OF MUMBAI (2015-2018)

Earned a distinguished '**A Grade**' in B.Sc. in Information Technology

Higher Secondary - Maharashtra State Board (2014-2015)

Graduated from High School with an impressive '**B Grade**'.

Secondary - Maharashtra State Board (2012-2013)

Achieved an outstanding '**A Grade**' in the S.S.C. examinations.
